A FIELD GUIDE FOR SHARP EYES

SPOT THE SLOP!

Ten signs a website was made by AI — AI website builders make pages that all look the same. Train your eyes on these ten tells, and you will spot a copy-paste website anywhere.

1 The Purple–Blue Fade

The page top melts from purple into blue. **Real designers pick colours on purpose — AI picks this one every time.**

2 One Font for Everything

Aa Aa Aa Aa

Headings, text, buttons — all in the same plain font. **A page with no font choices is a page nobody designed.**

3 Emoji Doing the Icons' Job

🚀 ⭐ ✅ 🔥

Rockets, stars and ticks instead of real icons. **Emoji change on every phone — real icons are drawn for the job.**

4 Lorem Ipsum Left Behind

Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt ut labore…

Fake Latin words still sitting on the finished page. **It means nobody even read the page before publishing it.**

5 Everything in the Middle

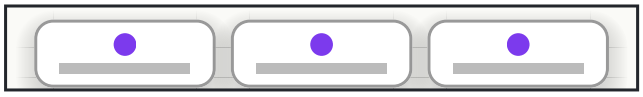

Every line is centred; nothing lines up at the edges. **Centring everything means nobody chose a layout.**

6 The Shiny Badge Pill

★ NEW · AI-POWERED

A little lozenge floats over the headline shouting "NEW!" **It's decoration dressed up as news.**

7 Three Same-Same Cards

Three boxes in a row: same shape, same words. **If they could swap places unnoticed, they say nothing.**

8 "Get Started" Buttons

Get Started Learn More

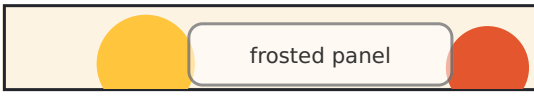

Get started doing what? **A good button names the job: "Download the worksheet", "Book a table".**

9 The Fancy Café Look

Maison Digitale — studio

Cream background, posh serif letters, soft sage green. **The new "classy" costume AI wears to look expensive.**

10 Glassy Blur Cards

Frosted see-through panels float over coloured blobs. **Pretty fog, zero information — content should come first.**

Found all 10 on one page? That's a Slop Score of 100. Check any real website free with **deslop**, the scanner that hunts these tells: `deslop-checker.rehmanahmad.com` · Code: `github.com/iRehmanAhmad/deslop`
